## **SUBJECT: Municipal and Campaign Client Endorsements**

The following comments were provided about my services from satisfied clients, all of whom I am doing business with currently:

I have engaged Dick Wambach for several years to consult and produce effective community communications. I recommend his services. His broad range of marketing and PR experience coupled with his knowledge of print production makes Wambach an excellent choice for any municipality or political candidate who requires accurate, economical and timely internet, email or print contact with their constituents. -- **Roy D. Brown, Supervisor, Town of Germantown**

Richard Wambach of Wambach Communications is my go-to guy whenever we enter into a political campaign. Richard can take my rough ideas and translate them into beautiful campaign pieces that we are proud to hand out. And he covers all the bases - hand-outs, free-standing signs, banners, print and broadcast advertising and internet. We have used his services in all of our most recent campaigns and retained him to develop a website which delivers not only campaign information but also our week to week activities - giving us a level of exposure we never had before. All of the material is handled in a timely manner and with great attention to detail. Richard is now a valuable part of our team.
