April 14, 2011

I have had the pleasure of knowing and working with Richard Wambach for many years, first as President of the Rhinebeck Chamber of Commerce and more recently as Mayor of the Village of Rhinebeck. His professionalism, willingness to listen, understanding of his clients needs, attention to detail and ability to work in a timely fashion are attributes that tremendously benefit those that are fortunate enough to work with him.

Richard was instrumental in helping me develop the new Village of Rhinebeck website [www.rhinebecknyvillage.org](http://www.rhinebecknyvillage.org). It is an incredibly modern, user friendly website that provides our community with a wealth of information on a real time basis. I give all the credit for the development and continuing updates and maintenance to Richard and Wambach Communications.

In closing I state without reservation that anyone enlisting the services of Richard and Wambach Communications is "swinging for the fences".

James O. Reardon  
Mayor  
Village of Rhinebeck
